

## Spectre Round Downlight LL-9210-W

### Technical Data

#### Description:

The Spectre Round recessed downlight has a deep set lamp position for maximum visual comfort. Engineered specifically for the Hero LED engines, the Spectre Round has a specially designed snap and lock system and comes with interchangeable reflectors and a glass lens - ensuring optimal glare control.

Designed for easy installation and maintenance - the reflector is removable and the lamp holder has a special push and release system for access after installation.

#### Requirements:

Spectre Round Black Reflector - LL-9210-R-B  
 Spectre Round White Reflector - LL-9210-R-W

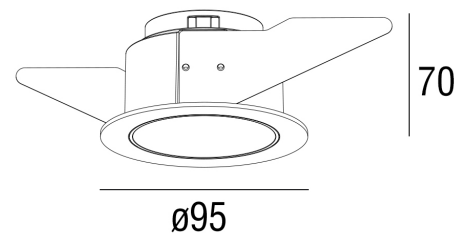

White Reflector LL-9210-R-W

Black Reflector LL-9210-R-W
