DIMMABLE	Compatible with most brand name dimmers
IP	IP 44
CERTIFICATION	CE, SAA
CEILING ROSE	Ceiling rose included
INSTALLATION	Lights must be installed by a qualified electrician
WEIGHT	Under 1kg
CARE	<p>TIMBER / All of our timber items come pre-oiled however timber requires a regular maintenance program in order to maintain the product's natural shine and preventing it from warping or splitting. We recommend polishing timber product's every 3 to 6 months, using a natural beeswax polish to restore and maintain. Make sure the surface is free of dust before starting.</p> <p>CERAMICS / Ceramic shades are slip-cast by hand by artisans in Australia and as such, may vary slightly between batches. Ceramics are particularly susceptible to damage and should be treated with care, particularly during installation. Wipe with a clean cloth to remove any dirt or dust. Use only lint-free cloths as fibers may be torn off when cleaning the rougher surfaces of unglazed earthenware.</p>
