ATTALOS COLLECTION, BY MARZ DESIGNS

The Attalos collection of interior lighting features complementary products designed to suit many situations. The range includes a Pendant light, Table lamp and two new releases, a Wall lamp and a Ceiling light. Incorporating ancient Greek sculptural aesthetics into machined brass and frosted glass components, the Attalos collection is both elegant and classic.

Introducing...

ATTALOS WALL LAMP

The Attalos wall lamp is a new addition to the current Attalos range and retains its classical sculptural aesthetic echoing ancient Greek architectural forms. Incorporating an LED frosted globe counterbalanced on a base and post machined from solid brass, the wall lamp is reminiscent of torches used to illuminate buildings in ancient times. Available in a choice of two diameters, the LED globes provide a gentle and diffuse light to suit any style of interior. Designed to complement the Attalos suite of products, the Attalos wall lamp can be installed individually or with other styles from the range.

ATTALOS CEILING LIGHT

The Attalos ceiling light is a new addition to Marz Designs' Attalos collection and in keeping with its stablemates, retains a classical sculptural aesthetic echoing ancient Greek architectural forms. Incorporating an LED frosted globe on a base machined from solid brass, the quiet design of this ceiling light ensures its timelessness. The LED globes provide a gentle and diffuse light to suit any style of interior. Designed to complement the Attalos suite of products, it can be installed individually or with others from the range.

ABOUT THE DESIGNER

Coco Reynolds lives and works in the Byron Bay hinterland. She began her career as an Industrial Designer and has subsequently worked professionally across a range of design related fields. In 2010 she established her independent practice Marz Designs, working in furniture, products, interiors and mixed materials. Her products reflect her passion for working with elemental materials and for marrying craft practice with industrial process.
